PROFESSIONAL SUMMARY

UX and Product Designer with 6+ years designing enterprise web and mobile applications for Fortune 500 clients including Nokia, Singtel, Chubb, Delta Air Lines and Lincoln Financial Group, across Retail, Travel, Insurance, E-commerce and Network Infrastructure. Specialise in design systems, interaction design, user research and data visualization, taking products end-to-end from discovery and wireframing to high-fidelity prototypes, usability testing and developer handoff. Delivered measurable results: 18% lower server traffic (Singtel), 23% more new customers and a 4.8/5 satisfaction rating (Chubb), and 30% higher operational efficiency (Delta). Master's in Product Design, bringing a systems-thinking, user-centered design approach to complex products.

CORE SKILLS

- **UX Design:** User Experience (UX) Design, Interaction Design, User-Centered Design, Design Thinking, Information Architecture, User Task Flows, Wireframing, Prototyping, Storyboarding, Visual Design, UI Design, Icon Design
- **Research:** User Research, User Interviews, Usability Testing, Usability Analysis, Heuristic Analysis, Personas, Journey Mapping, Competitive Analysis
- **Systems:** Design Systems, Component Libraries, Design Tokens, Style Guides, Accessibility (WCAG 2.1 AA), Responsive Design
- **Product:** Data Visualization, Dashboard Design, Enterprise SaaS, AI / Conversational UX, UX Strategy, Product Visioning, Ideation, Conceptualization
- **Collaboration:** Cross-functional Collaboration, Design Facilitation, Agile / Scrum, Developer Handoff, Timelines and Estimates, Mentoring, Design Leadership

PROFESSIONAL EXPERIENCE

Independent Product Designer | Self-employed | Remote | Jul 2025 – Present

- Product Designer for Loominote (client: Binaryvlue), an AI voice-notes app for iPhone and Apple Watch, Jul – Aug 2025; ran competitive analysis of 4 market leaders and defined design principles for a voice-first product (case study in portfolio).
- Cut the onboarding flow from 13 screens to 4 through iterative user flows and prototyping, landing users on a working first note faster.
- Designed and prototyped 28 screens across onboarding, capture, settings, error states and Apple Watch, following Apple Human Interface Guidelines.
- Built an iOS design system with color, typography and spacing tokens, 9 components, a dark theme and WCAG AA colour contrast.

LTIMindtree | Bengaluru, India | Aug 2019 – Jul 2025

Led UX design for multiple Fortune 500 clients, working as solo designer or leading teams of 5+ designers. Methods across roles: user interviews, journey mapping, task flows, storyboarding, usability and heuristic analysis, and developer handoff in Agile teams.

Senior Product Designer | Nov 2023 – Jul 2025

- Led the Nokia WaveSuite icon design system, improving visual consistency and clarity across the application suite.
- Led user research and UX for Nokia WaveSuite network-infrastructure applications, including new applications and screens, login flows and animations.
- Designed the Taara AI chat assistant for Nokia WaveSuite (2023–24), defining conversational UX, user flows, wireframes and high-fidelity prototypes (case study in portfolio).
- Designed and delivered a new dashboard for Singtel Smart 3.0, reducing server traffic by 18%.

Designer | Feb 2021 – Nov 2023

- Led design of the Chubb Customer Service Portal, growing new customers by 23% and raising customer satisfaction to 4.8/5 within 2 months.
- Co-designed the Chubb component library and designed KPI dashboards for multiple departments and workflow stages, turning complex insurance data into clear data visualization (case study in portfolio).
- Designed an integrated operations platform for Delta Air Lines, improving operational efficiency by 30% and cutting operational costs and redundant information.

Associate Designer | Aug 2019 – Feb 2021

- Researched design-system content for Domtar's Attends websites and helped merge 27 websites into one unified experience.
- Refined the Lincoln Financial Group (LFG) design system, led logo design for LFG applications, and led dashboard design that improved data observability and reliability.
- Tested the newly built Barbeque Nation application, helping it release 2 months ahead of schedule.

EDUCATION

- **Master in Product Design** – School of Planning and Architecture (SPA), New Delhi | 2017 – 2019
- **Bachelor of Architecture (B.Arch)** – School of Planning and Architecture (SPA), New Delhi | 2012 – 2017
